

# HOMELESS doesn't need to mean HOPELESS

Brighter Futures Through the Power of Work

## POWER of WORK

*Employment Program for People Experiencing Homelessness*

For homeless individuals, participation in a supportive job environment is vital to securing long-term, living wage employment. It is an on-ramp that can lead directly to a variety of jobs, occupational trainings or apprenticeships. Through the *Power of Work* grant-funded program, participants will be placed into structured work experiences in supportive and flexible environments.

Participants are provided with opportunities to earn wages that help support self-sufficiency, as well as practice or expand skills in order to build upon their work history. Ultimately, the goal is to transition participants into permanent, sustainable employment.
