What is PrEP ?

When taken daily, PrEP (Pre-Exposure Prophylaxis) is a highly effective pill that helps prevent HIV.

Why Take PrEP ?

By taking PrEP and using condoms you are reducing the risk of getting HIV. With these prevention tools you are able to have a more confident and safe sex life. PrEP is highly effective, safe, and accessible to everyone.

Who is PrEP for ?

Anyone who is sexually active and wants to be protected against HIV can be a candidate for PrEP!

Need PEP ?

Have you been recently exposed to HIV?
We can help.

What is PEP ?

When taken within 72 hours of exposure for 28 days, PEP (Post Exposure Prophylaxis) is a highly effective course of HIV medicines that helps to prevent HIV infection.

Who is PEP for ?

PEP is for non-HIV individuals and should be used only in emergency situations, after a possible exposure to HIV to prevent HIV infection.
