

# Monthly Network Meeting Wednesday, September 7, 2022

- · 10:00am Check In
- · Opening Remarks & Information

#### **Presenters**

#### WIN/LA

## Mikala Mulitauaopele - Mikalam@winla.org

WIN serves families with children ages o - 5 by providing free mental health therapy, resource navigation via our community resource specialists, and supplying our families with creative children's activities. WIN empowers families with young children to build resilience and thrive by strengthening relationships within families and communities. WIN envisions a world in which all children thrive within resilient families and communities.

## **Uncle Dave's Housing**

Felicia Edelman - Uncledaveshousing@yahoo.com David Wohlman - David@uncledaveshousing.org

Safe and affordable housing for men in South Los Angeles. Uncle Dave's Housing helps men transition back into society and find permanent housing. Our shared housing program is designed to support a purpose-driven 2nd chance at life. A new opportunity that values accountability, openness, sharing, and collaboration. Our housing offers a quiet place to sleep, and a safe place to call home. We believe by individuals sharing rooms that there is accountability and less chance to isolate and let mental health increase. By living together everyone shares resources and positive actions heed positive influence on each other. Each person learns to respect the house they live in.

### St. Joseph Center

Evert Cordova - Ecordova@stjosephctr.org

Miriam Espericueta - Mespericueta@stjosephctr.org

St. Joseph Center's mission is to provide working poor families, as well as homeless men, women, and children of all ages with the inner resources and tools to become productive, stable, and self-supporting members of the community.

#### **MLK Behavioral Health Center Residential Program**

Liliana Gudino - lgudino@healthright360.org

The MLK BHC -Healthright360 Residential Substance Use Disorder (SUD) program is designed to fill in gaps in the continuum of health and behavioral health care. It addresses the interrelated and complex needs of people struggling with access to care for mental illness and substance use, as well as medical conditions, homelessness, and reentry population by providing services designed and implemented to increase independence and social integration.
