THE VETERAN PEER ACCESS NETWORK

VPAN is a program modeled after Battle Buddy Bridge. It delivers Peer Support services to Veterans (regardless of VA Health Care status), Active Reserve, National Guard, and Military Families. The goal is to increase an individual's overall well-being, access to basic needs and treatment, reduce internal and external barriers to receiving temporary and permanent housing, along with empowering and developing self-determination with clinical support, by linking them to services efficiently, including care coordination, self-help tools, education, and self-management in crisis situations.

- *Linkage to Physical Healthcare & Preventative Services*
- *Linkage to Substance Abuse Service*
- *Linkage to Homeless Resources*
- *Linkage to Veteran and non-Veteran Specific Benefits*
- *Peer Housing Navigation*
